

Annapurna Classic 15 days

Highlight information

- ✓ Cross Thorong La Pass (5,416 m), one of the world's highest trekking passes
- ✓ Trek through diverse landscapes: rice terraces, alpine deserts, and glacier valleys
- ✓ Explore cultural villages: Manang, Mustang, and sacred Muktinath
- ✓ Panoramic views of Annapurna, Dhaulagiri, Manaslu, and Tilicho Peak
- ✓ Meet Gurung, Thakali, Tibetan, and Bön communities in villages like Lupra
- ✓ Follow ancient trade routes and sacred pilgrim trails
- ✓ Optional side trips to Tilicho Lake, Ice Lake, and relaxing hot springs at Tatopani
- ✓

Overview

The Annapurna Circuit is a dream trek for many mountain lovers, offering stunning views of the Annapurna and Dhaulagiri ranges along with incredible diversity in both scenery and culture. The journey begins in lush green rice fields and gradually ascends through dense forests and alpine meadows to the dry, windswept landscapes of the Mustang region.

One of the major highlights is the famous Thorong La Pass, standing at 5,416 meters. Crossing it is a challenging but unforgettable experience, rewarding trekkers with panoramic Himalayan views.

This legendary trail reveals a remarkable variety of landscapes and cultures—from subtropical valleys to high-altitude deserts, and from Gurung villages to Tibetan-influenced settlements. Every step offers something new, making the Annapurna Circuit one of the most inspiring and diverse trekking routes in the world.

Trip Grading

Although there are no any distinct and universal grading systems for treks, a general rule of grading is followed to understand the difficulty of a trekking. In Nepal, trekking routes are categorized based on difficulty to help trekkers select suitable adventures. These categories consider factors such as altitude, terrain, duration, and required experience.

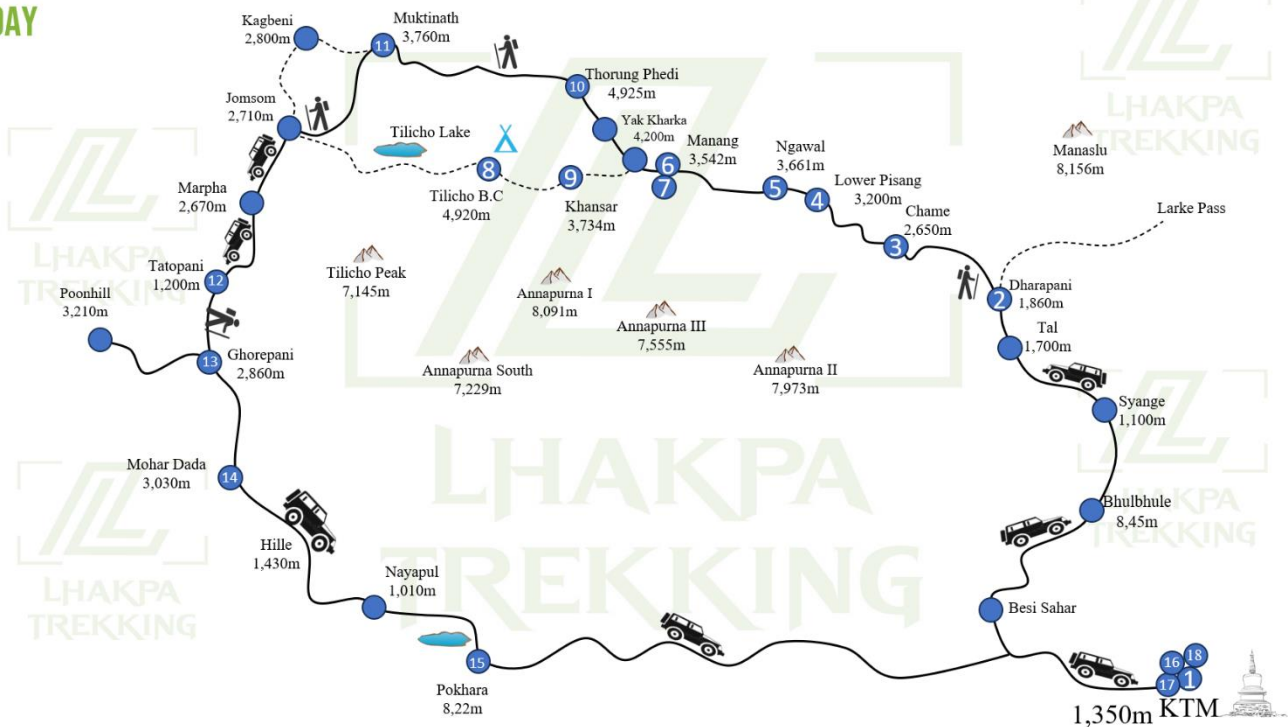

Grade 4: Strenuous Treks

- Altitude: 4,500–6,000 meters
- Duration: 6–8 hours of walking per day
- Terrain: Steep ascents, rocky paths, and potential snow
- Experience Required: Suitable for experienced trekkers with good physical fitness

- Examples: Everest Base Camp Trek, Manaslu Circuit Trek and all the high passes (Tilicho Thorong la, Ganja la, Mesokanta la, Kang la, Larkya la, Chola la, Kongma la, Renjola).

Itinerary & map

ANNAPURNA CLASSIC FULL 17 DAY

Day 1

Arrive Kathmandu 1350m. Transfer to the hotel

Your happy holiday starts in Kathmandu. From airport to hotel transferred included depending on arrival times, you will be able to have a freshen up before briefing with guide in the late afternoon. According to the time, you can walk/drive to Swayambhunath Stupa (Monkey Temple) and from here watch your first Nepali sunset over the Kathmandu Valley, from the oldest stupas in Nepal and is now an important centre for Buddhism. This is one of the most Important world heritage sites of Nepal.

Accommodation: Hotel. Meals excluded: Breakfast included, Transfer: 20 M drive

Day 2

Kathmandu - Besi Sahar (760 m) - Dharapani (1860 m)

Early morning departure to Besisahar. This route main highway between Nepal and India, we allow till Mugling. Throughout passing numerous villages we arrive to Besisahar to change the jeeps. After Besisahar, the road then turns into a stony track, a little bumpy but bordered by beautiful landscapes of rice fields and traditional Nepalese villages. A few landslides can sometimes delay us or force us to change vehicles several times; Faced with these little daily adventures, it is wise to follow the example of the Nepalese who maintain a smile and good humor... We finally arrive at the Dharapani. Installation at the lodge.

Accommodation: lodge. **Meals included:** morning, afternoon, evening. **Transfer:** 6h drive (Besi Sahar) + 3 hours track (Dharapani)

Day 3

Dharapani - Chame (2700 m)

After the breakfast, The trail climbs steeply to Timang, marking the end of the vast Marsyangdi Gorge, and then gradually levels out as the vegetation changes from dense pine woods to drier hillsides. After Besisahar, Chame, the district headquarters of Manang, is the biggest settlement.

Elevation gain: 750 m. **Elevation loss:** 340 m. **5 hours of walking.**

Accommodation: lodge. **Meals included:** morning, noon, evening. **Transfer:** 1h30 on the track.

Day 4

Chame – Lower Pisang (3200 m)

We visit a stunning stupa and chorten to begin the day after crossing the river. The valley opens up at a river bend where the granite lies down in a massive, breathtaking inclined plane. Due to the recently opened road, the visit to the historic village (Uppar Pisang) and its monastery, which is 150 meters above sea level, jeeps and tractors occasionally interrupt us round Bagarchhap.

Elevation gain: 830 m. **Elevation loss:** 350 m. **6 hours of walking.**

Accommodation: lodge. **Meals included:** morning, noon, evening.

Day 5

Pisang - Ghyaru (3720) - Tibetan village of Ngawal (3661 m)

The upper path offers excellent views but is steeper. The trail begins with a mild rise through picturesque farm lands and pine trees.

Take pauses to take in the expansive vistas of the surrounding peaks, including Tilicho Peak, Pisang Peak, Ganga purna, Annapurna II, III, and IV. Following Ghyaru, the track gradually levels out before continuing on the elevated path to Ngawal. Along the route, there are stunning views as the environment changes to one that is more arid and alpine. The charming town of Ngawal is well-

known for its stone homes, traditional culture, and tranquil setting.

Take in the sunset over the Annapurna range and spend your evening at the nearby monastery.

Your trip's most picturesque day is today.

Elevation gain: 685 m. **Elevation loss:** 217 m. **6 hours of walking.**

Accommodation: lodge. **Meals included:** morning, noon, evening.

Day 6

Ngawal - Braga Monastery - Manang (3542 m)

The trail offers stunning vistas of the Annapurna range, including Annapurna, as it progressively descends from Ngawal. The trail winds past terraced farms and tiny communities.

Discover a Tibetan-style monastery that dates back 600 years and is situated atop a steep hill. embellished with paintings, statues, and pieces of old art. There are expansive views of the Manang valley and the Annapurna range from the location.

Along the trip, there are stunning views as the scenery changes to a more desert and alpine region.

Ngawal is a lovely community renowned for its tranquil ambiance, stone homes, and traditional culture. Savor the evening by touring the nearby monastery and taking in the Annapurna range's sunset. The most gorgeous day of your journey is today.

Elevation gain: 140 m. Elevation loss: 273 m. 4 hours of walking.

Accommodation: lodge. Meals included: morning, noon, evening.

Day 7

Ice Lake (4610 m) (Kicho Tal): Panorama of the Annapurnas / Rest and acclimatization day in Manang

Beginning in Braga or Manang hamlet, the journey climbs sharply across alpine meadows. Because of the high elevation and rough terrain, the indicated track is difficult to follow. It is a glacier lake at a high elevation with crystal-clear blue water that reflects the surrounding peaks in its breathtaking turquoise waters. panoramic views of Gangapurna and the Annapurna range, which includes Annapurna II, III, and IV.

Optional: Gangapurna Lake is perfect for a quick trip or acclimatization because it is easier to get to and needs less work.

Elevation gain: 1100 m. Elevation loss: 1100 m. 7 hours of walking.

Accommodation: lodge. Meals included: morning, noon, evening

Day 8

Manang - Leather (4217 m)

The short day today is beneficial for acclimatization. An unusual view of the region's typical high-altitude desert terrain. Along the way, one may see Himalayan animals such as eagles, marmots, yaks, and blue sheep.

Elevation gain: 720 m. Elevation loss: 56 m. 4.5 hours of walking.

Accommodation: lodge. Meals included: morning, noon, evening.

Day 9

Leder - Thorung Phedi (4500m), at the bottom of Thorong La

The short but significant walk from Leder (4,200 m) to Thorung Phedi (4,500 m) is part of the Annapurna Circuit. It brings you closer to one of the world's highest trekking routes, Thorong La Pass (5,416 m). Beautiful scenery, a steady rise in elevation, and the excitement of traversing the difficult pass define this segment. views of snow-capped peaks, glacial rivers, and arid high-altitude terrain, such as Thorong Peak (6,144 m) and Khatung Kang (6,484 m).

Elevation gain: 380 m. Elevation loss: 71 m. 3 hours of walking.

Accommodation: lodge. Meals included: morning, noon, evening.

Day10

Thorung Phedi - Thorong La pass (5416 m) - Muktinath (3760 m)

Starting early, the trail is steep but manageable as it crosses the Thorung La Pass (5416 m). After climbing, arrive at the top of the pass, which is decorated with prayer flags, a typical stupa (chorten), and stone cairns that travelers have constructed. Marvel at how far you've climbed and pause to take in the breathtaking vistas. As it continues, the route drops off sharply in the direction of Chabarbu. The walk then passes through meadows, descends into a deep gorge, climbs out, and continues along a broad path to Muktinath, a sacred location revered by both Buddhists and Hindus.

Elevation gain: 912 m. Elevation loss: 1691m. 8 hours of walking.

Accommodation: lodge. Meals included: morning, noon, evening

Day11

Muktinath - Lupra (3000 m) – Drive to Tatopani (1200 m)

Valley of Kaligandagi, world deepest gorge in the world. In this valley, this is last night spending together with groups all Nepali staffs.

We head out of Muktinath and toward the little, historic settlement of Lupra, avoiding the road. The Bön monasteries, an ancient religion that predominated in the Himalayas before the arrival of Buddhism, are among the last in the area.

The settlement is reached by a steep descent into the riverbed. We travel three hours by jeep from there to Tatopani, a sizable, administrative, bustling, and commercial town on the banks of the Kali Gandaki. Tato means hot in Nepali, and pani means water. There is a source of hot water there, and you can refresh yourself for a small fee of 150 rupees per person. Don't forget to bring your swimming gear. On the Tukucho summit, the Dhaulagiri (8167 m), and the north face of the Nilgiri, the vista is breathtaking.

Elevation gain: 200 m. Elevation loss: 1100 m. 5 hours of walking.

Accommodation: lodge. Meals included: morning, noon, evening. Transfer: 3 hours

Day12

Tatopani – Pokhara 800 m

If this is a combined group, it's time for good-bye (group + Nepali) after breakfast. Take the car to Pokhara to see the amazing city. Pokhara's milder climate will undoubtedly improve our mood. If we arrive on time, we can choose from a variety of boating experiences on the calm lake waters that reflect Fishtail Mountain. Near the international airport, you could also go to the Davis Falls and the International Museum of the History of the Himalayas and Ethnology.

Accommodation: Hotel. Meals included: morning, noon. Transfer: 3 hours

Day13

Pokhara - kathmandu

Once breakfast is finished, you will drive back to Kathmandu.

Approximately six or seven hours are needed to finish this picturesque drive along the Prithvi Highway.

Accommodation: Hotel. Meals included: morning, noon. Transfer: 6 hours

Day14

Kathmandu – souvenirs day, sightseeing day or free day.

Among the option, if you are heading for sightseeing, this day-day cultural tour will offer you a well-rounded experience of Kathmandu's history, spirituality, and art while being guided by an expert, certified who can enrich your understanding of the city's unique heritage.

Accommodation: Hotel. Meals included: morning,

here's a suggested itinerary and price that balances history, culture, and local experiences. Maximum visited only three sites in day.

Swayambunath

Bhaktapur

Boudhanath

Patan Darbar square

Kathmandu Darbar square

In this price, an expert and certified cultural and tour guide a vehicle reserved and a professional driver for whole during the sightseeing.

2-3 pp 70€. 4-6 pp 50€. 7-10 pp 35€. 11-15+ 30€

Day 15

Back to the native land

According to your flight schedule the grand departure. We will come to drive you to the airport.

What's included

- Ground travel as specified in the programme.
- Domestic flights as described.
- Accommodation as described in the programme.
- Hotel as described in the programme.
- Meals as described in the programme.

- Entrance fee to Annapurna Park.
- Professional guide
- Assistance from a local team during the trek.
- A first aid kit.
- 1 porter for 2 clients

What's not included

- Travel Insurance
- International flight
- Tips for porters and other trek staff
- Drinks, souvenirs, Wifi internet, etc.
- Anything not listed under " price includes
-

Personal Expenses

Trekking in Nepal includes most major costs, but PERSONAL EXPENSES vary depending on individual spending habits. On average, €200 (\$200-250 USD) should cover:

- Beverages – Soft drinks, tea, coffee, and alcoholic drinks (prices increase with altitude).
- Snacks & Extras – Chocolates, energy bars, and personal food purchases along the trek.
- Souvenirs – Handicrafts, prayer flags, and traditional items from trekking villages.
- Tips for Guides & Porters – Tipping is customary in Nepal; recommended \$5-\$10 per day for guides and \$3-\$5 for porters.

Tips and gratitude

Tipping is a long-standing tradition in the adventure sector in Nepal and a meaningful way to show appreciation for the hard work of guides, porters, and trekking staff. While not mandatory, it is customary to tip at the end of the trek, usually as a group, to ensure a fair and organised distribution. Your trek guide will advise on an appropriate amount based on the trek duration and team size. Many groups present tips with a small farewell gathering or celebration on the last evening, marking the end of their trek. Additionally, trekkers often choose to donate equipment such as boots, gloves, hats, scarves, and trekking poles to the porters and crew. These items are highly valued and appreciated, especially by those working in the mountains. Tour leaders can be tipped separately during the final group dinner in Kathmandu or Pokhara. Though not obligatory, a small personal token of gratitude for their efforts enhances the spirit of mutual respect and appreciation.

Best time to visit Nepal

Frankly, Nepal is an all-season tourism destination. However, for adventure enthusiasts, there are 2 major seasons to visit Nepal. Here is a detailed look at the seasons and their weather patterns in Nepal for you to decide when best to visit:

| Season | Months | Weather Characteristics | Trekking Conditions |
|-----------------|----------------------|--|--|
| Spring | March – May | Mild temperatures, clear skies, blooming rhododendrons | Excellent for trekking, colorful landscapes |
| Summer/ Monsoon | June – August | Heavy rainfall, humid, cloudy | Difficult due to slippery trails and poor visibility |
| Autumn | September – November | Stable weather, clear skies, moderate temperatures | Best season for trekking, peak tourist time |
| Winter | December – February | Cold temperatures, snowfall at high altitudes | Suitable for lower-altitude treks, high passes may be closed |

Weather condition in spring (March -May)

Average Temperature:

- Kathmandu & Pokhara: 10°C – 30°C
- Everest Base Camp & Annapurna Base Camp: 5°C – 15°C
- weather, clear mornings, occasional afternoon clouds.
- Flowers and rhododendrons bloom, making the trails scenic.
- increasing humidity in late May, signalling the approaching monsoon
- Everest 3 Passes Trek – Best visibility of Everest.
- Peaky Peak Trek– Best for rhododendrons, Sherpa culture and mountains.
- Annapurna Regions – Best for rhododendrons, lush landscapes and moderate temperatures.
- Langtang Valley Trek– Ideal for nature lovers with vibrant forests and mountain

Weather condition in Summer (june - august)

Average Temperature:

- Kathmandu & Pokhara: 20°C – 35°C
- Everest Base Camp & Annapurna Base Camp: 0°C – 20°C

Weather & Conditions:

- Heavy rainfall (average 200–500 mm per month), especially in July and August.
- Frequent landslides and flight cancellations, especially in hilly areas.
- Leeches on lower-altitude trails due to humidity.

Best Treks for Summer: (Only in rain-shadow areas with minimal rainfall)

- Upper Mustang Trek – Lies behind the Himalayas, shielded from the monsoon.
- Dolpo Trek – Dry, high-altitude desert with unique Tibetan culture.

Weather condition in Autumn (September - November) Best Trekking Season

Average Temperature

- Kathmandu & Pokhara: 10°C – 28°C
- Everest Base Camp & Annapurna Base Camp: -5°C – 15°C

Weather & Conditions:

- Stable weather, crystal-clear skies, and moderate temperatures.
- Best visibility of Himalayan peaks, making it the most popular season.
- Crowded trekking trails, especially on Everest Base Camp and Annapurna Circuit.

Best Treks for Autumn:

- Everest Base Camp Trek – Peak visibility of Everest.
- Manaslu Circuit Trek – Challenging but scenic and less crowded.
- Gokyo Lakes Trek – Stunning turquoise glacial lakes

Weather condition in Winter (December - February)

Average Temperature:

- Kathmandu & Pokhara: 2°C – 20°C
- Everest Base Camp & Annapurna Base Camp: -15°C – 10°C

Weather & Conditions:

- Cold temperatures, snowfall at higher elevations.
- Shorter daylight hours, some high passes (e.g., Thorong La) may be closed.
- Fewer trekkers, offering solitude.

Best Treks for Winter: (Lower-altitude treks to avoid extreme cold)

- Ghorepani Poon Hill Trek – Short, scenic trek with snow-capped views.
- Everest Panorama Trek – Lower-altitude trek with Everest views.
- Helambu Trek – Close to Kathmandu, no high passes.

Best Treks in summer season

- Upper Mustang Trek – Lies behind the Himalayas, shielded from the monsoon.
- Dolpo Trek – Dry, high-altitude desert with unique Tibetan culture.

Best Trekking Destination in Nepal

This is tough to say because every destination in Nepal is a wonder on itself. Broadly, from adventure perspective, you'll find two major types of destinations. The first ones are the most popular ones which often are the most accessible and will have huge number of trekkers in seasons. These destinations often have a long history of exploration and something of global sensation what make them popular every year. These destinations include:

- Everest Base Camp Trek
- Annapurna Circuit Trek
- Annapurna Sanctuary Trek
- Upper Mustang Trek
- Upper Dolpo Trek
- Langtang Valley Trek

- Manaslu Circuit Trek, etc.

Then there are these other groups of destinations which are not as popular but offer an unmatched level of serenity, peace and wilderness that is hardly found anywhere. They offer the true sense of adventure, experience and the thrill of exploration. These destinations in Nepal include:

- Ruby Valley Trek
- Tamang Heritage Trail
- Api Himal Base Camp Trek
- The Great Himalayan Trail
- Makalu Base Camp Trek
- Sherpini Col Trek
- Kanchenjunga Base Camp Trek
- Dhaulagiri Circuit Trek
- Sisine Himal Trek, and so on.

The choice of your destination depends on your time, cost, and the experience you wish to have.

Food and Accommodation in Nepal

Food (meal plan) and accommodation are among the most important things when in Nepal and in course of the trek. Please make sure to let the booking agency know of your allergies if you have any and also let them know if you are in any personal medication and need special attention at any time during the trek

Accommodation in Kathmandu & Pokhara

- Hotel Standards – Most trekkers stay in 2-3 star hotels in Thamel (Kathmandu) or Lakeside (Pokhara) before and after trekking.
- Twin-Sharing Basis – Standard bookings are twin-sharing, but single rooms can be arranged at an extra cost.
- Facilities – Hotels offer hot showers, Wi-Fi, laundry services, and 24-hour electricity.

Accommodation in Trekking Regions

- Teahouses / Lodges – These are family-run guesthouses with dorm-style or twin rooms.
- Basic Bedding – Rooms have wooden beds, foam mattresses, blankets, and pillows, but heating is not available in most lodges.
- Shared Bathrooms – Most lodges have shared toilets and limited hot water (solar-heated in some places).
- Dining Areas – Warm communal dining halls serve as social hubs for trekkers.
- Electricity & Wi-Fi – Available in lower-altitude teahouses but may require extra charges at higher altitudes.

- No Single Rooms at Higher Altitudes – In remote areas, multi-bedded rooms may be the only option.

Meals in Kathmandu & Pokhara

- Breakfast & Dinner – Served at hotels or local restaurants.
- Wide Food Selection – Includes Nepali, Indian, Chinese, and Western cuisine.
- Popular Dishes – Dal Bhat (lentils & rice), Momos (dumplings), Thukpa (Tibetan noodle soup), pizza, pasta, curries, and grilled meats.

Meals During Trekking

- Standard Trekking Meal Plan – Breakfast, lunch, and dinner included in most trekking packages.
- Dining at Lodges – Meals are prepared in teahouse kitchens, with all trekkers typically eating the same menu.
- Ordering in Advance – Due to limited supplies in remote areas, meals must be ordered in advance.

Common Meals on Treks

- Breakfast: porridge, pancakes, Tibetan bread, chapati, eggs, tea/coffee.
- Lunch & Dinner: Dal Bhat (lentil soup, rice, vegetables), noodles, pasta, potatoes, soups, and curries.
- Vegetarian Options Available: Meat is available at lower altitudes but not recommended at high altitudes due to storage concerns.
- Soup & Hydration: Garlic soup is often recommended as it helps with acclimatisation.

Water & Hydration

- Drinking Water Safety – Tap water is not safe for drinking in Nepal.
- Filtered/Boiled Water Provided – Teahouses offer boiled or filtered water (often at extra cost).
- Water Purification Recommended – Trekkers should bring purification tablets, LifeStraw, or Water-to-Go bottles.
- Avoid Plastic Bottles – Buying bottled water is expensive and environmentally harmful.

Visa on Arrival

Nepal offers Visa on Arrival for most nationalities at Tribhuvan International Airport (TIA) in Kathmandu and certain land border checkpoints. The process is straightforward:

1. Fill out the visa application form (available online at Nepal Immigration or at the airport).
2. Submit a passport-sized photo (carrying one is advisable).
3. Pay the visa fee (preferably in USD). Visa Fees (as of 2025)
 - 15 Days – \$30 USD
 - 30 Days – \$50 USD
 - 90 Days – \$125 USD

Multiple Entry – Additional \$20 USD (if you need to leave and re-enter Nepal)

Visa from Nepalese Embassies & Online Application (e-Visa)

- Travelers can also obtain visas from Nepalese embassies or consulates before arrival.
- Online application (e-Visa) is available via the official Nepal Immigration website (<https://www.immigration.gov.np/>).

Visa Extensions

- Available at the Department of Immigration in Kathmandu or Pokhara.
- Costs \$3 per day after the original visa expires.
- Minimum extension is 15 days (\$45 USD), and maximum is up to 150 days per calendar year.

Visa Exemptions

- Indian nationals do not require a visa to enter Nepal.
- SAARC country citizens (except Afghanistan) get a free 30-day visa on their first visit in a year.
- Children under 10 years old are exempt from visa fees.

Restricted Areas & Special Permits

Certain trekking regions, such as Upper Mustang, Upper Dolpo, and Manaslu, require special permits in addition to the standard visa. These must be arranged through a registered trekking agency.

Entry Points for Visa on Arrival

Apart from Kathmandu Airport, visas can also be obtained at:

- Kakarbhitta (Eastern Nepal, near India)
- Birgunj (Central Nepal, near India)
- Bhairahawa (Western Nepal, near Lumbini)
- Nepalgunj (Mid-Western Nepal, near India)
- Dhangadhi (Far-Western Nepal, near India)
- Mahendranagar (Far-Western Nepal, near India)
- Rasuwagadhi (Near Tibet-China border)

Notes for passports

- Passport validity: Your passport must be valid for at least six months from your arrival date.
- Proof of onward travel: Immigration may ask for a return flight ticket or itinerary.
- Visa payment: Cash payments in USD, Euro, or major currencies are accepted (credit cards may not be an option at some entry points).

Insurance

Travel insurance is mandatory for many trekking routes in Nepal, including Everest Base Camp, Annapurna Circuit, Manaslu, and Upper Mustang. Given Nepal's rugged terrain, high altitudes, and

limited healthcare facilities in remote areas, a comprehensive insurance policy ensures financial protection in case of emergencies.

When purchasing insurance for Nepal, ensure it covers the following:

1. High-Altitude Trekking & Mountaineering

- Standard travel insurance may not cover trekking above 3,000 meters (9,842 ft).
- Policies must include coverage up to 6,000 meters (19,685 ft) if trekking to Everest Base Camp, Annapurna, or other high-altitude destinations.
- Climbers attempting peaks above 6,000m (e.g., Island Peak, Mera Peak) require mountaineering-specific insurance.

2. Emergency Helicopter Evacuation

- Helicopter rescue costs \$5,000 – \$10,000 USD per evacuation in Nepal.
- Ensure your policy explicitly includes air evacuation in remote areas.
- Some insurers may require pre-authorization, so confirm the claim process in advance.

3. Medical Expenses & Hospitalization

- Coverage should include treatment for altitude sickness (AMS, HAPE, HACE), fractures, infections, and general injuries.
- Kathmandu has high-quality private hospitals, but serious cases may require medical evacuation to Thailand or India.

4. Trip Cancellation & Delays

- Due to unpredictable weather, flights to Lukla (Everest region) and Jomsom (Annapurna region) are frequently delayed or canceled.
- A good policy should cover trip cancellations, rescheduling fees, and extra accommodation costs.

5. Lost or Stolen Gear

- Nepal is generally safe, but lost luggage, stolen equipment, or damage to personal belongings can happen.
- Policies should cover trekking gear, cameras, and electronics.

Recommended Insurance Providers

- Reliable insurance providers for Nepal trekking include:
- World Nomads – Covers trekking up to 6,000m, medical, evacuation, and delays.
- Global Rescue – Specializes in helicopter evacuation and high-altitude trekking coverage.
- Allianz Travel Insurance – Comprehensive trip cancellation and medical coverage.
- Trawick International – Covers adventure sports, including peak climbing.
- True Traveller (for EU/UK residents) – Covers altitude trekking and medical emergencies.

Things to Check Before Buying Insurance

- Read the fine print – Some policies exclude high-altitude activities unless specified.
- Ensure the policy covers Nepal – Some insurance providers exclude certain countries.
- Confirm the claim process – Check how to contact insurers in case of an emergency.

- Carry a printed copy – Some lodges and trekking agencies may require proof of insurance before issuing permits.

Cost of Travel Insurance for Nepal

- Basic trekking insurance (up to 3,000m) → \$50 – \$100 USD per trip
- High-altitude trekking insurance (above 5,000m) → \$150 – \$300 USD per trip
- Climbing insurance (6,000m+ peaks) → \$500+ USD per trip

Having the right insurance policy ensures you are financially and medically protected during your Nepal trek. Always verify coverage details before purchasing.

Gears and Equipment Recommended for Trekking in Nepal

Pushing in thin air in the piercing wind, freezing cold is never an easy thing to undertake. Himalayan treks often demand a high level of strength and endurance and a similar level of gear and equipment which can withstand the harshness of a mountain. Here is a complete list of gears and equipment we recommend for trekking in Nepal Himalaya:

Clothing (Layering System for Trekking)

Nepal's trekking regions experience temperature variations from 30°C (lower altitude) to -10°C (higher altitude). A proper layering system ensures adaptability to changing conditions.

Base Layer (Moisture-Wicking, Breathable)

- 2-3 Thermal tops (Merino wool or synthetic)
- 2-3 Thermal bottoms (leggings or long underwear)

Mid Layer (Insulation for Warmth)

- Fleece jacket or down jacket (for warmth)
- Softshell jacket or light insulated vest (for layering)

Outer Layer (Waterproof, Windproof Protection)

- Gore-Tex or equivalent waterproof shell jacket
- Waterproof hiking pants

Trekking Shirts & Pants

- 3-4 Quick-dry T-shirts (synthetic or Merino wool)
- 2-3 Convertible trekking pants (zip-off style preferred)

Cold Weather Gear (For High-Altitude Regions)

- Down jacket (800-fill recommended for subzero temperatures)
- Thermal gloves & mittens
- Insulated trekking pants

Rain Gear (Essential for Monsoon Season Treks)

- Lightweight rain jacket (Gore-Tex or similar)
- Rain cover for backpack

Footwear (For Different Trail Conditions)

Trekking Boots

Waterproof, high-ankle support boots (break them in before the trek)

Camp Shoes / Sandals

For walking around lodges and teahouses

Socks (Moisture-Wicking, Warmth-Retaining)

3-4 pairs Merino wool trekking socks (for cold and warmth regulation)

2 pairs liner socks (to prevent blisters)

Gaiters (For Snow & Muddy Trails)

Recommended for Everest, Annapurna, and Manaslu treks in winter

Accessories & Trekking Essentials

Backpacks & Bags

- 50-70L Backpack (for self-supported treks)
- Daypack (25-35L for guided treks with porters)
- Dry bags or waterproof pouches for electronics and important documents

Sleeping Gear

- Sleeping bag (rated -10°C to -20°C for high-altitude treks)
- Sleeping bag liner (for extra warmth & hygiene)

Hiking Accessories

- Trekking poles (collapsible, lightweight)
- Headlamp (with extra batteries)
- Sunglasses (UV protection, polarized)
- Water bottles (Nalgene or insulated flasks, 2L capacity minimum)
- Hydration bladder (optional but useful for easy access to water)

Navigation & Safety Gear

- Map & Compass (or GPS device if trekking solo)
- Multi-tool knife (Swiss Army or equivalent)

First Aid Kit & Medication

- Personal prescription medications
- Diamox (for altitude sickness, if advised by a doctor)
- Painkillers (ibuprofen or paracetamol)
- Blister treatment (Compeed, Moleskin patches)
- Bandages & antiseptic wipes

Personal Hygiene & Toiletries

- Biodegradable soap & shampoo
- Toilet paper & wet wipes
- Lip balm (SPF protection for dry, cold air)
- Sunscreen (SPF 50+)

Electronics & Communication

- Power bank (10,000-20,000mAh)
- Solar charger (for remote trekking routes)
- Local SIM card (NCELL or Nepal Telecom for network coverage)

Optional But Useful Gear

- Buff / Neck Gaiter – Protects against dust, sun, and cold.
- Lightweight Book / Journal – For downtime in teahouses.
- Snacks & Energy Bars – Available in cities but expensive in trekking areas.
- Duct Tape / Repair Kit – Useful for gear repairs on the trail.

Remember, especially the body gears should be better tested for safety as you can't afford to have gears that malfunction in high altitude. So, avoid knock off brands which might save you a bit initially but can eventually cost an entire adventure.

Altitude Sickness in Trekking

Altitude sickness, also known as Acute Mountain Sickness (AMS), occurs when the body fails to adapt to lower oxygen levels at high altitudes. It typically affects trekkers above 2,500 meters (8,200 ft) and can range from mild discomfort to life-threatening conditions. There are different types of altitude sickness. AMS is the most common and is the first stage in getting altitude sickness. AMS if left unchecked goes on to become dangerous.

| Type | Symptoms | Altitude Range | Severity |
|--------------------------------------|---|--------------------------------------|---------------------------|
| Acute Mountain Sickness (AMS) | Headache, nausea, dizziness, fatigue, loss of appetite, difficulty sleeping | 2,500m – 5,500m (8,200ft – 18,000ft) | Mild to Moderate |
| High Altitude Pulmonary Edema (HAPE) | Shortness of breath, persistent cough (frothy sputum), chest tightness, blue lips/nails | Above 3,500m (11,500ft) | Severe & Life-Threatening |

| | | | |
|-------------------------------------|--|-------------------------|--------------------|
| High Altitude Cerebral Edema (HACE) | Confusion, loss of coordination (ataxia), severe headache, unconsciousness | Above 4,000m (13,100ft) | Fatal if Untreated |
|-------------------------------------|--|-------------------------|--------------------|

Note: HAPE and HACE are medical emergencies that require immediate descent and oxygen treatment.

Risk Factors for Altitude Sickness

- Rapid Ascent – Climbing too quickly without proper acclimatization.
- Genetic Susceptibility – Some individuals are naturally more prone.
- Dehydration & Overexertion – Increases symptoms of AMS.
- Previous History of AMS – Higher risk if experienced before.

Prevention Strategies

1. Follow the "Golden Rule" – Climb High, Sleep Low

- Never ascend more than 500m (1,640ft) per day above 3,000m. Or simply, follow your guide
- Every 1,000m (3,280ft) gain, take a rest/acclimatization day.

2. Stay Hydrated & Maintain Nutrition

- Drink 3-4 liters of water daily to avoid dehydration.
- Eat carbohydrate-rich meals to sustain energy levels.

3. Avoid Alcohol & Sleeping Pills

- Alcohol dehydrates and worsens oxygen absorption.
- Sleeping pills suppress breathing and can increase AMS risk.

4. Use Acclimatization Stops

- Everest Base Camp Trek: Acclimatization at Namche Bazaar (3,440m) & Dingboche (4,410m).
- Annapurna Circuit: Rest at Manang (3,540m) before crossing Thorong La.

5. Medication (For High-Risk Trekkers)

- Diamox (Acetazolamide) – Helps prevent AMS; start 125-250mg twice daily before ascent.
- Dexamethasone – Emergency treatment for severe altitude sickness.
- Nifedipine – Used for HAPE cases.
- Please note that these medicines require a medical professional's prescription and can't be consumed haphazardly.

6. Descend Immediately if Symptoms Worsen

- If mild AMS symptoms persist, descend at least 300m (1,000ft).
- If HAPE or HACE symptoms occur, descend immediately with medical help.
- Emergency Treatment & Evacuation in Nepal
- Supplemental Oxygen – Available in some lodges and hospitals.
- Gamow Bag (Portable Altitude Chamber) – Used in extreme cases.
- Helicopter Evacuation – Costs \$5,000 – \$10,000 USD (covered by good insurance).

Travael Advisory for Nepal

Before travelling to Nepal, it's important to stay informed about safety, health, and entry requirements. Below is a detailed travel advisory covering safety, health guidelines, political stability, and essential travel tips.

Health & Vaccinations

- Required Vaccines: No mandatory vaccines for entry, but the following are recommended:
- Hepatitis A & B – Due to potentially contaminated food or water.
- Typhoid – For protection against foodborne illnesses.
- Rabies – If planning extended stays in remote areas.
- Tetanus & Diphtheria – Basic precaution.
- Malaria & Dengue: Malaria risk is low in Nepal's trekking regions but present in southern Terai areas (Chitwan, Lumbini).
- Dengue outbreaks occur seasonally (especially during the monsoon). Use mosquito repellent and wear long sleeves in affected areas.

Political Stability & Security

- General Safety: Nepal is politically stable and safe for travellers.
- Border Security: Certain trekking areas (e.g., Upper Mustang, Manaslu) require special permits. Travel to remote border regions (Tibet, India) may be restricted without prior approval.

Natural Hazards & Trekking Safety

- Earthquakes: Nepal lies in a seismically active zone. Follow emergency protocols in case of tremors.
- Landslides & Flooding: Monsoon season (June–August) increases risks of landslides and road blockages. Trekkers should avoid landslide-prone areas and check the weather forecast before trekking.
- Avalanches & Glacial Lake Outbursts: Winter and spring treks in high-altitude areas (Everest, Annapurna, Manaslu) may be affected. Hiring an experienced guide is strongly recommended. Our guides are well trained in avalanche safety and glacial hazards.

Crime & Personal Safety

- Crime Rate: Nepal has a low crime rate, but petty theft and scams exist.
- Common Scams: Overpriced taxis – Always negotiate fares or use ride-hailing apps.
- Fake trekking permits – Only book with registered trekking agencies. Booking with us gives you mental relief.
- Donation fraud – Verify NGOs before donating.
- Solo Travellers: Nepal is safe for solo travellers, including women, but trekking alone is not recommended in remote areas.

Transportation Safety

- Domestic Flights: Mountain weather can cause delays in flights to Lukla, Jomsom, and Pokhara. Book flexible return tickets in case of cancellations.
- Road Travel: Roads in Nepal are poorly maintained, and bus travel can be dangerous. Hiring a private vehicle with a driver is the safest option.

Communication & Emergency Contacts

- IM Cards & Internet: NCELL and Nepal Telecom (NTC) offer prepaid SIM cards for tourists. The internet is available in major cities but can be unreliable in remote trekking areas.
- Emergency Numbers:
- Tourist Police: 1144
- General Police: 100
- Ambulance: 102
- Nepal Immigration Office: +977 1-4113045

About Nepal

Nestled between India and China, Nepal is a stunning landlocked nation in South Asia. Nepal is renowned for having the highest mountain in the world, Mount Everest, and for its breathtaking Himalayan scenery, rich cultural legacy, and friendly people. Lord Buddha was born there, and it's a popular destination for hikers, climbers, and adventurers. A vibrant and spiritual destination, Nepal is remarkably diversified in terms of race, language, and religion despite its tiny size.

Total Population of Nepal

- As of 2025, Nepal has a population of approximately **31.5 million** people.
- The population is diverse, with over 100 ethnic groups and languages.

Nepalis Working Abroad

- Roughly **15–20%** of Nepal's population is working overseas, mostly in countries like **India, Malaysia, Qatar, UAE, and Saudi Arabia**.
- **Remittances** from these workers make up about **20–25% of the national GDP**, making it a major part of the economy.

Condition of Youth in Nepal

- Many youths are **unemployed or underemployed**, even after getting a degree.
- Due to limited job opportunities and political instability, a significant number choose to **migrate abroad** for work.
- Despite challenges, Nepali youth are **resilient, talented, and active** in fields like tech, tourism, and entrepreneurship.

Current Condition of Nepal

- Nepal is a **developing country** with immense natural beauty and potential, especially in tourism and hydropower.
- Major challenges include **poverty, unemployment, infrastructure issues**, and a high dependency on foreign aid and remittance.
- There's a growing **urban-rural gap**, and many remote areas still lack basic services.

Political Situation

- Nepal is a **federal democratic republic**, but its political landscape is often **unstable and fragmented**.
- Frequent changes in government, internal party conflicts, and a lack of long-term vision have slowed national progress.

- Citizens are hopeful for **better leadership and accountability**, especially from the younger generation of politicians.
